Prut River - Prut river valley is one of the biggest target region of the project

The project deals with the public awareness on solid municipal waste management. It is planned to work closely with the representatives from the local public administrations, educational institutions, farmers in order to promote the separate collection of solid municipal waste. It is planned to build small demonstration platforms for composting the vegetal waste, publishing the information and educational materials on separate collection of solid municipal waste, etc. Two conferences will be organized with participants from 4 countries.

Overall Objective:

The overall objective of the project is to achieve stronger regional partnerships and cooperation. By doing so, the project aims to contribute to its key wider objective: “a stronger and more sustainable economic and social development of the regions of the Black Sea Basin”.

Specific Objectives:

- 1- To reduce the volume of solid waste at landfills in project target regions
 - 2- Improvement of the state of environment in the project target regions
- This objective will be achieved by promoting separate collection of the solid municipal waste and educational activities of the project target groups and final beneficiaries
