

Black Sea Basin Programme

~ Our Projects ~

Priority 3: Supporting cultural and educational initiatives for the establishment of a common cultural environment in the Basin
Measure 3.1: Promoting cultural networking and educational exchange in the Black Sea Basin communities

Industrial Evolution in the Black Sea Area - Examples from Greece, Romania and Armenia (IEBSA)

Central Macedonia, Greece - South-East, Romania - Armenia

About the Project

Duration:

24 Months

Total Budget:

€ 248.763,40

Total Grant:

€ 223.887,06

Start-End Dates:

2012/03/27 -
2014/03/26

The basic idea refers to the pursuit of the common trends in industrial evolution in the countries participating in the project and the effect that development had on the cultural history in both national and international level. By means of this common effort we will highlight the essential common components of nations living in the area, search the effects on the social and economic development and finally record the good practices in each country.

All methodological steps will supported by work meetings in which scientists from the participant countries will participate having as a main goal to exchange experience and know-how in methods of recording / depicting and highlighting of industrial evolution.

The IEBSA project aims to formulate a sustainable network that would be able to expand and collaborate effectively after the project's completion. It will have an impact as a good example and a benchmark of successful use of European funds.

Overall Objective:

Achieve strong regional partnerships and cooperation among the participant entities and also bring together the peoples of the Black Sea Basin.

Specific Objectives:

1. Increase the level of cooperation among local and regional authorities in the area
2. Build a friendly environment for the development of long lasting economic relations.

Partnership

Main Activities:

The project will last 24 months and will include the following methodological steps:

- 1) The creation of a common database on the effects in society (social, economic and cultural) from the industrial evolution through the years. Three studies (one for each country) will present the situation and also will provide the necessary data to create the exhibition.
- 2) The promotion material to disseminate the results of the common effort, comprising 3.000 copies of multimedia material (CD ROM) and 3.000 copies of exhibition guide.
- 3) An exhibition on the common elements of industrial evolution.
The main target groups will be the researchers of industrial history, university students and visitors of the museum (children and adults).

Beneficiary:

Thessaloniki Science Center & Technology Museum (TSCTM), Thessaloniki, Central Macedonia, Greece

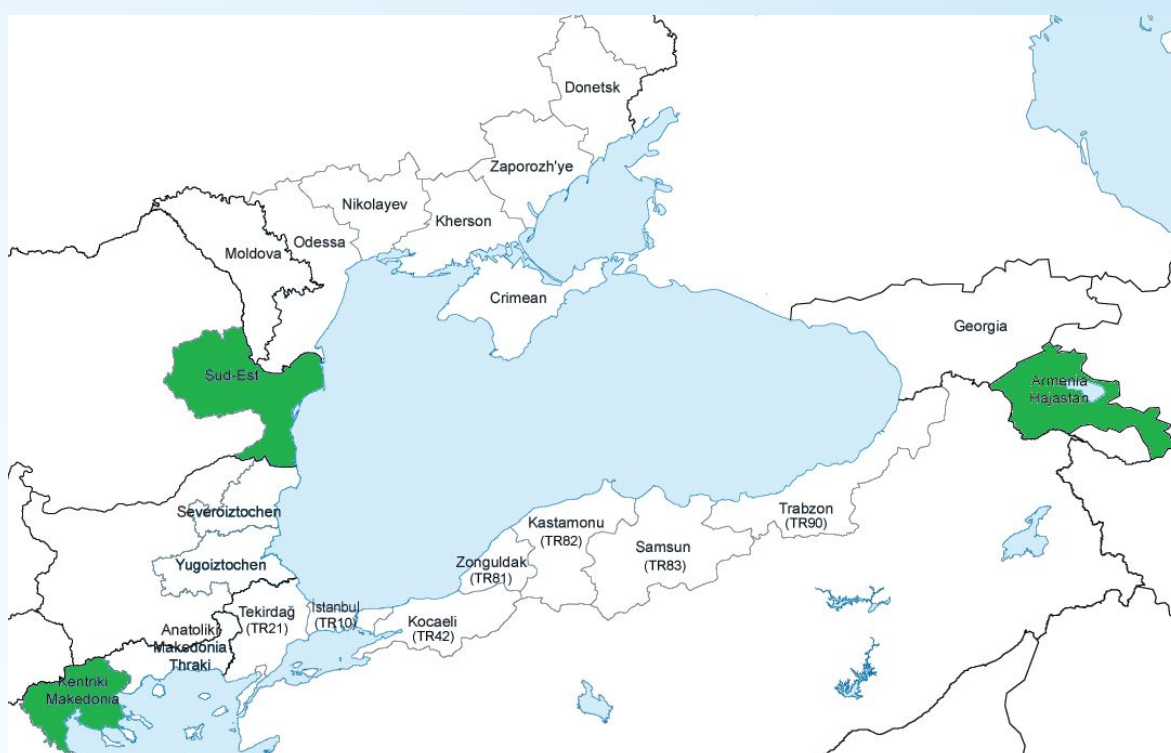

Partnership:

Universitatea "Dunărea De Jos" Din Galați (UDJG), Galati, South-East, Romania

National Academy of Sciences of the Republic of Armenia (NASRA), Yerevan, Armenia
