11. Total eligible costs (9+10)				€ 532,785.00				€ 216,350.00	

1. The Budget must cover all eligible costs of the Action, not just the Programme's contribution. The description of items must be sufficiently detailed and all items broken down into their main components. The number of units and unit rate must be specified for each component depending on the indications provided: for example, for a 24 months duration Action with a full time project coordinator, the expense is "Project coordinator", the unit is "per month", the number of unit is "24", the unit rate is the gross monthly cost and the cost will be automatically calculated as the product between the cost per unit and the number of units.
2. This section must be completed if the Action is to be implemented over a period of more than 12 months.
3. Costs and unit rates are rounded to the nearest euro cent.
4. Please add different rows if same positions have different cost. If staff are not working full time on the Action, the percentage should be indicated alongside the description of the item and reflected in the number of units (not the unit rate). More specifically, for each part time staff, please insert as in the following example:
 - o Description: Regional Coordinator Bulgaria (working 50% over a 18 months period, part time salary 1,000 Euro);
 - o No. of units: 18*50%;
 - o Unit rate: 2,000 Euro.
5. Costs for CO2 offsetting of air travel may be included. CO2 offsetting shall in that case be achieved by supporting CDM/Gold Standard projects (evidence must be included as part of the supporting documents) or through airplane company programmes when available. Indicate the place of departure and the destination. If information is not available, enter a global amount.
6. Please include each travel on separate row and detail for each row how many persons and the route they travel (from .. to...). Please carefully check Annex G *Eligibility of expenditure* to the Guidelines for Grant Applicants.
7. Per diems cover accommodation, meals and local travel within the place of the mission and miscellaneous expenses. The calculation of per diems and the applicable rates must not exceed the scales published by the E.C. at the time of contract signature ([Annex H. Daily allowance rates](#)). If information is not available, enter a global amount. Please include each country on separate row and detail for each row how many persons, which nationality and how many days. Please carefully check Annex G *Eligibility of expenditure* to the Guidelines for Grant Applicants.
8. Costs of purchase or rental. Please note that only the equipment and supplies specifically mentioned within the Grant Application Form (section 2.4.2.9) may be included.
9. These costs may cover only premises rented especially for the Action. The normal rental and service costs are administrative expenditure under heading 10.
10. Specify. Lump sums will not be accepted.
11. For the Romanian Beneficiaries/partners, the costs for expenditure verification are not eligible from the budget of the Joint Action, being covered by the national control system (set up by the Ministry of Regional Development and Tourism, Romania).
For each Beneficiary/partner from Armenia, Bulgaria, Georgia, Greece, R.Moldova, Ukraine and Turkey, corresponding costs for expenditure verification shall be budgeted under this budgetary line, despite the fact that for the Bulgarian and Greek entities the verification shall be performed by the national control system, whereas for the rest, audit firms shall be contracted following the provisions of Annex IV of the Grant Contract.
12. Communication and visibility activities should be properly planned and budgeted at each stage of the project implementation. These activities should not only focus on publicising the EU support for the action but also on its outcome and impact. Please note that the Communication and Visibility Manual for EU External Actions is available on the following website: http://ec.europa.eu/europeaid/work/visibility/index_en.htm.
13. Contingency reserve can only be used with the prior written authorization of the Joint Managing Authority in case of ENPI funds and CFCU in Turkey for IPA funds.
14. Only indirect costs which are not assigned to another heading of the budget are included here. Please mention the general condition taken into account for the use of flat rates:
 - The ratio of the number of people working for the Action / number of people working in the organization or department;
 - The ratio of the number of hours worked on the Action / number of hours worked in total in the organization or department;
 - The ratio of the surface used by the personnel working for the Action / surface of the organization or department.

NOTA BENE: The Beneficiary alone is responsible for the correctness of the financial information provided in all budget tables.
