EUROPEAN UNION

**COMMON SOLUTIONS.**

# Zero Waste Strategy: Methods and Implementation in Black Sea Basin

## Expected Results:

- Zero Waste Management Guides and 1 Online Zero Waste Platform;
- 4 Zero Waste Centers in partner countries;
- Investment for integration of Zero waste system in 39 local villages in Kirkclareli region, Turkey: 2 mobile waste collecting centers, 78 containers and 1 ICT Program for Zero Waste Application and Control System;
- Investment for clear environment in Tsarevo, Bulgaria: 2 cleaning machines;
- 4 Zero Plastic in Schools campaigns in Greece and in Bulgaria;
- 2 Bottle Cap Art Exhibitions in Greece and in Bulgaria;
- 5 clean-up days in wetlands and lakes near the Thessaloniki, Greece, 1 joint cleaning campaign in border river Rezovska and 2 joint coastal clean-up campaigns in Bulgaria and Turkey.

Common borders. Common solutions.

***ZeroWasteBSB is a project  
researching the methods of  
implementation of the zero waste  
practices***

**Duration:** 24 months  
**Start Date:** 23.04.2020  
**Total Value:** 967 479.00 EURO  
**ENI Contribution:** 890 080.68 EURO

## Partnership

**Lead Beneficiary:** Kirkclareli Special Provincial Administration, Turkey  
**Beneficiary 2:** ANTIGONE, Greece  
**Beneficiary 3:** The Institute of Market Problems and Economic & Ecological Research of the National Academy of Science of Ukraine  
**Beneficiary 4:** Tsarevo Municipality, Bulgaria

## Contact:

# Anti-Littering Partnership for Green Rural Areas

## Expected Results:

- Plastic and Paper separation in the target rural communities in Armenia: 16 containers for plastic collection and 8 containers for paper collection;
- Plastic and Paper separation in the target rural communities in Georgia: 80 containers for plastic collection and 60 containers for paper collection;
- Plastic and aluminum collection in tourist and recreation zones in selected rural areas of Georgia: 20 containers for mixing collection of plastics and aluminum;
- 5 Collection sites for plastic&paper sorting in selected rural communities from Ungheni district (Republic of Moldova) - 40 containers;
- 30 Individual composting demonstration sites in the pilot schools and farms in the selected rural communities;
- Anti-littering education program regarding river and marine litter.

Common borders. Common solutions.

***APRA contributes towards improving the anti-littering capacity of rural areas by supporting the introduction of waste management and by raising environmental awareness through cross-border cooperation***

**Duration:** 24 months  
**Start Date:** 01.05.2020  
**Total Value:** 780 701.00 EURO  
**ENI Contribution:** 718 244.92 EURO

## Partnership

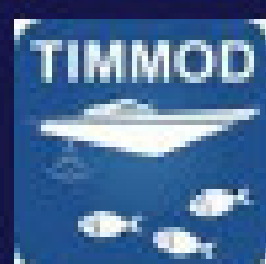

- Lead Beneficiary:** Tskaltubo Municipality, Georgia
- Beneficiary 2:** The Regional Environmental Centre for Caucasus, Armenia
- Beneficiary 3:** Ungheni City Hall, Republic of Moldova
- Beneficiary 4:** Galati Tehnopol Association, Romania
- Beneficiary 5:** Imereti Scientists' Union "Spectri", Georgia

# Promoting Technology Innovation in Environmental Monitoring & Modelling for Assessment of Fish Stock and Non-Fish Resources

## Expected Results:

- Situational Analysis of monitoring of environmental parameters and assessment of fish stock & non-fishing resources at Black Sea;
- Inventory on Technology Innovations in marine environmental monitoring and assessment of fish stock and non-fishing resources, and review on Best Practices;
- Report on recommendations on adoption of appropriate technology innovation and promotion of best practices for marine environmental monitoring at Black Sea;
- 4 ICT monitoring data handling and numerical modelling tools, integrated in a Pilot Monitoring & Modelling Data Sharing Platform;
- Black Sea Strategy for advancement in technology innovation.

Common borders. Common solutions.

***TIMMOD project aims at improving joint environmental monitoring and modelling, by facilitating Technology Innovation, enhancing availability and sharing quality data for water quality, biodiversity statistics, assessment of fish and non-fish living resources of the Black Sea***

**Duration:** 24 months

**Start Date:** 15.05.2020

**Total Value:** 982 958,89 EURO.

**ENI Contribution:** 904 322.17 EURO

## Partnership

**Lead Beneficiary:** Institute of Fishing Resources-Varna, Bulgaria

**Beneficiary 2:** Black Sea – Danube Association for Research and Development, Bulgaria

**Beneficiary 3:** Aristotle University of Thessaloniki - Special Account of Research Funds, Greece

**Beneficiary 4:** LEPL National Environmental Agency, Georgia

**Beneficiary 5:** Regional Environmental Centre Moldova, Republic of Moldova

**Beneficiary 6:** Danube Delta National Institute, Romania

# Joint actions for environmental protection in Black Sea Basin

## Expected Results:

- 5 River clean-up activities involving 700 citizens;
- 25 Educational awareness campaigns regarding environmental protection;
- 4 patrols for environmental protection, 1 in each partner country;
- BeECO IT application to report affected area(s) by waste;
- 12 Capacity building sessions regarding 3R (reduce, reuse, recycle), Environmental ranger and Environmental entrepreneurship;
- 1 Common Educational tool to reduce river litter;
- E-Learning Web Platform available in English, Armenian, Georgian and Romanian languages.

Common borders. Common solutions.

*BeECO is an innovative project that promotes public awareness and education regarding river and marine litter problems and share good environmental practices for biodiversity and environmental protection in Black Sea Basin*

**Duration:** 24 months

**Start Date:** 01.06.2020

**Total Value:** 703 870.00 EURO

**ENI Contribution:** 647 560.40 EURO

## Partnership

**Lead Beneficiary:** Association of Cross border Cooperation "Lower Danube Euroregion", Romania

**Beneficiary 2:** PRO NATURA Galati Association, Romania

# Development and Promotion of Active Tourism in the Black Sea Basin

## Expected Results:

- Construction of the Adventure park in Garboavele forest from Romania (8,4 ha of forest with 15 adventure routes, with different difficulty levels);
- Sports and Tourism Base from Cantemir (Republic of Moldova) will be upgraded and fully equipped;
- Investments to organized Vylcovo Recreation Base, Vylcovo (Ukraine);
- 1 Touristic circuit in the Black Sea Basin region;
- 4 Training session in the field of tourism and culture;
- 12 Tourism and cultural events.

**Common borders. Common solutions.**

*EscapeLand proposes an innovative project that will jointly promote active tourism in the Black Sea Basin using IT modern tools and methods.*

**Duration:** 24 months

**Start Date:** 01.06.2020

**Total Value:** 1 377 103.96 EURO

**ENI Contribution:** 1 266 935.64 EURO

## Partnership

**Lead Beneficiary:** Territorial Administrative Unit Galati County, Romania

**Beneficiary 2:** Vilkovo City Council, Ukraine

**Beneficiary 3:** Cantemir District Council, Republic of Moldova

**Beneficiary 4:** Self-Government City of Kutaisi, GE

**Beneficiary 5:** Constanta County Council, Romania

# Black Sea Archaeology, History and Culture Portal

## Expected Results:

- 1 Cultural web portal cultural collections of galleries, libraries, archives and museums, particularly:

an integrated library system for collecting bibliographic data;

a digital library for description and presentation of photo, audio, video data collections;

3D models of small archaeological objects as well as sites like buildings, monuments, excavations;

a digital collection of old maps of the Black Sea region;

Web-GIS for georeferencing the presented objects.

Common borders. Common solutions.

*ArHiCuP promotes the archaeological, historical and cultural tourism in the Black Sea region by presenting the rich treasures of its cultural heritage in a coherent way, using advanced web technologies*

**Duration:** 24 months

**Start Date:** 01.06.2020

**Total Value:** 566 400.00 EURO

**ENI Contribution:** 521 088.00 EURO

## Partnership

**Lead Beneficiary:** Municipality Nessebar, Bulgaria

**Beneficiary 2:** Museum for National History and Archaeology Constanța, Romania

**Beneficiary 3:** National Museum of History of Moldova, Republic of Moldova

## Contact:

**Address:** Edelvais 10, 8230 Nessebar, Bulgaria

# Cross-Border Alliance for Climate-Smart and Green Agriculture in the Black Sea Basin

## Expected Results:

- A community of practice and transnational network of organizations for regional branding, internet connectivity and learning in climate-smart agriculture in the Black Sea Basin;
- An interactive map of logistic centres in the partner countries for wholesale and retail trade in sustainably delivered agricultural produce;
- Internet Platform for liaising sustainable producers and promotion of climate-smart agriculture;
- A regional brand and a branding strategy for green and biological agriculture in the Black Sea Basin;
- Integrative blended mobility training "Entrepreneurship for Climate-smart Agriculture in the Black Sea Basin";
- Developed and tested (on 3 pilot plots) climate-smart crop models, adapted to the environmental, social and economic conditions.

Common borders. Common solutions.

***AGREEN' project aims to build capacities for networking and transnational knowledge transfer of the development of climate-smart agriculture in view of increasing the trade opportunities, economic and social performance of the sector as a development driver in the Black Sea Basin***

**Duration:** 30 months

**Start Date:** 01.06.2020

**Total Value:** 799 279.60EURO

**ENI Contribution:** 735 337.23 EURO

## Partnership

# Promoting Heritage and Culture-based Experiential Tourism in the Black Sea Basin

## Expected Results:

- Regional Needs Assessment Report for the development of experiential tourism in the project countries and a Regional Action Plan for encouraging the heritage and culture-based experiential tourism;
- Inventory of Business Models for experiential tourism in the Black Sea Basin;
- Pilot Inventories of heritage and culture activities and events in the Black Sea Basin;
- On-line repository of resources and tools for experiential tourism in the Black Sea Basin;
- Network of Black Sea Hubs on Experiential Tourism;
- 1 International Fair on Heritage and Culture-based Experiential Tourism.

Common borders. Common solutions.

***PRO EXTOUR is a project that aims to promote experiential tourism as a sustainable development pathway for tourism business in the BSB by valorising the potential of the indigenous heritage and culture, innovative solutions and cross-border cooperation***

**Duration:** 30 months

**Start Date:** 01.06.2020

**Total Value:** 913 380.00 EURO

**ENI Contribution:** 840 309.60 EURO

# Bridges of Trade

## Expected Results:

- 5 Studies of the current status of the international trade indicating the agricultural and connected products that are mostly demanded (imported) in and offered (produced - exported) from each participating country;
- 5 BRIDGES events in each partner country where 40 producers/sellers from the host region will meet with buyers from all the other participating regions in pre-defined meetings;
- 1 ICT training tool to support the international traders-to-be enterprises;
- Trading Bridges Network supporting agricultural SMEs (buyers & sellers) to undertake international trading initiatives.

Common borders. Common solutions.

**BRIDGES** project aims at creating strong trade links in the agricultural and connected sectors, among importers from the partner regions, and help producers in these sectors

**Duration:** 24 months

**Start Date:** 01.06.2020

**Total Value:** 571 889.00 EURO

**ENI Contribution:** 526 137.88 EURO

## Partnership

**Lead Beneficiary:** Municipality of Nestos, Greece

# Local Development and Cross Border Cooperation in the area of Agricultural Products and Traditional Food

## Expected Results:

- Studies on the current situation of traditional products (designation, market potential) in the partner countries and 1 Study on Best Practices in other European Union counties;
- EU labeling procedures for the selected traditional products: 3-7 of them from the partner countries;
- Booklet "At the roots of taste" as a catalogue including short recipes, underlying in the same time the benefits of traditional products;
- "Geography of taste" meaning a Data Base and GIS platform for the local farmers and enterprises dealing with the traditional products in the cross-border area to promote their products.

Common borders. Common solutions.

**LOC-FOOD project promotes products of exceptional taste and nutritional quality, produced locally. It also gives them an added value by classifying them with labels such as Protected Designation of Origin (PDO) Protected Geographical Indication (PGI), Traditional Specialities Guaranteed (TSG), thus boosting the local economies and securing tradition preservation**

**Duration:** 24 months

**Start Date:** 08.06.2020

**Total Value:** 798 927.50 EURO

**ENI Contribution:** 735 013.30 EURO

## Partnership

# Joint Monitoring for Environmental Protection in BSB Countries

## Expected Results:

- Methodology of technology-based environmental monitoring and Methodology for joint monitoring of natural habitats and invasive species;
- Database to collect data of river water and dust air quality, process and analyze cross-border compatible environmental data in Black Sea Basin;
- Joint monitoring action of natural habitats and invasive species with proposed measures to be undertaken towards pollution preservation and restoration of the monitored key areas;
- Investment works in Ahtopol/ Bulgaria - Cross-border Centre for joint environmental monitoring in Black Sea Basin.

Common borders. Common solutions.

***BSB ECO MONITORING project aims at increasing the level of availability of cross-border compatible environmental monitoring data and information in nature parks and protected areas in Black Sea Basin***

**Duration:** 24 months

**Start Date:** 17.06.2020

**Total Value:** 1 000 000.00 EURO

**ENI Contribution:** 920 000.00 EURO

## Partnership

**Lead Beneficiary:** Association for Culture, Technology, Education and Development - Plovdiv University - Strandzha, Bulgaria

# Rapid Earthquake Damage Assessment ConsorTium

## Expected Results:

- A harmonized REDA (Current status assessment in partners' countries) framework development, based on cross-border exchange of information;
- Rapid Earthquake Damage Assessment System (REDAS) to distribute data and information regarding Earthquake Damage;
- Smartphone application to support crowd sourcing and to provide the ability of communication (exchanging messages) in real time;
- Educational Hub providing earthquake risk education to raise public awareness and help the population to improve their capacity to respond in Emergencies, to better coordinate with the Authorities and thus to improve Emergency Response Efficiency & public safety.

**Common borders. Common solutions.**

*REDACT aims at promoting common policies and strategies leading to sharing data, information and competencies in order to respond to major issues related to Earthquake Preparedness & Emergency Response, by providing reliable Real-Time information regarding induced damages, including structures, gas pipelines, lifelines and geo-technical failures; prompt dissemination of respective alert information*

**Duration:** 30 months

**Start Date:** 01.07.2020

**Total Value:** 974 860.00 EURO

**ENI Contribution:** 896 871.20 EURO

## Partnership

**Lead Beneficiary:** The Legal Successor of Technological Educational Institute of Central Macedonia, the "International Hellenic University", Greece

# Herbs for Growth

## Expected Results:

- Market Research Cross-Country Study on facts and needs for modernisation of herb enterprises and improvement of trade value of herb products in partner countries;
- Training program for modernisation of herb enterprises available on an e-learning platform;
- Maturity toolkit for Black Sea Herb Cluster to promote the environmentally responsible economic activity with reference to herb plant species as well as the improvement of trade and exporting opportunities of high value herb products produced in project countries;
- Network "Black Sea Herb Business Forum" for cooperation and establishing trade linkages.

Common borders. Common solutions.

***HEGO will change the production model for herb products in all project countries, which will lead to the positive effect on improving the economic and business performance of the herb sector and indirectly on contributing to the biodiversity conservation of endemic herb plant species, with the sustainable utilization***

**Duration:** 30 months

**Start Date:** 01.07.2020

**Total Value:** 745 983.00 EURO

**ENI Contribution:** 686 304.36 EURO

## Partnership

# Cleaner Rivers – Cleaner Seas

## Expected Results:

- Waste Alert Mobile Application to speed up the quick assessment of the waste hotspots close to the river banks or floating litter, illegal dumping and report it to the authorities;
- 1 Training Pack on the main sources of pollution of rivers and the best available solutions for reducing river littering;
- 4 Small scale demonstration facilities for sustainable waste management;
- Photo exhibition to raise awareness of the local populations on prevention and reduction of river littering;
- Clean up activities and outdoor eco-parties involving 520 youngsters.

## Common borders. Common solutions.

*CRoCuS aims at producing innovative tools for rapid assessment of river litter and waste recycling potential, promoting sustainable waste management practices, sharing good practices and mistakes and raising awareness across the borders for reduction of bio-degradable waste and plastics recycling and minimization*

**Duration:** 30 months

**Start Date:** 01.07.2020

**Total Value:** 486 881.75 EURO

**ENI Contribution:** 447 931.21 EURO

## Partnership

# Copernicus assisted environmental monitoring across the Black Sea Basin

## Expected Results:

- Online modular and replicable services' platform;
- 4 Assessments of environmental issues in pilot areas using EO data and services;
- Compendium on training material used for the capacity building activities;
- Local clusters on water management and pollution prevention in all participating countries to accelerate gap analysis and results uptake into the everyday business.

Common borders. Common solutions.

***PONTOS aims to enhance transboundary cooperation for large-scale, harmonized environmental monitoring across the countries of the Black Sea region and beyond. The vehicle towards this objective is the exploitation of numerous freely available and incrementally credible Copernicus data and services (e.g. Copernicus Land and Marine Environment Monitoring Services)***

**Duration:** 30 months
